Face to face with death himself, he shuddered at the thought of the murders he had ordered without even a preeme of legal authority. He estimates that 200 prisoners met death while he was in charge of the prison. The close of the Revolution, however, did not remove all of the terrors from the prison. Thenceforward it was used for the incarceration of debtors, and though harbaritles ceased to be practiced there, the annals of the times tell of many heart-reading scenes within its portals before, in 1811, its use as a jail was formuly abandoned. Then it was made into the present Hall of Records.

Now, after being the theater of exciting scenes for mure than 100 years, and with a record breaker than that of the troopshins which have written many a dark page in the history of British warfare, the old Hall of Records is to disappear from the pathway of progress.
